

## 2017 Latest Design Wall/Roof Panel Forming Machine - Reasonable price for Ac Inverter Speed Regulation Roofing Ridge Cap Tile Forming Machine - Haixing Industrial

"Quality initial, Honesty as base, Sincere company and mutual profit" is our idea, so that you can create consistently and pursue the excellence for Reasonable price for Ac Inverter Speed Regulation Roofing Ridge Cap Tile Forming Machine, The principle of our business is usually to supply high-quality items, skilled services, and truthful communication. Welcome all mates to place trial order for creating a long-term organization connection.

"Quality initial, Honesty as base, Sincere company and mutual profit" is our idea, so that you can create consistently and pursue the excellence for [Roofing C/z Tiles Roll Forming Machinery](#), [Roofing Ridge Cap Tile Forming Machine](#), [Roofing Sheet Machine](#) [Roofing Sheet Rollforming Machine 914](#), Since our establishment, we keep on improving our merchandise and customer service. We have been able to offer you with a wide range of high quality hair items at competitive prices. Also we can produce different hair solutions according to your samples. We insist on high quality and reasonable price. Except this, we provide best OEM service. We warmly welcome OEM orders and customers all over the world to cooperate with us for mutual development in the future.

The galvanized ridge roofing sheet/cap roll forming machine is mainly used to produce the roof panel. The traditional ridges are made of glazed tiles, but have now been replaced by new ridge tiles. The color steel ridge tiles and aluminum-formed ridge tiles that are pressed out of roof ridge making machine are lighter, easier to install and less expensive.

Machine parameters		
1	Decoiler	Manual decoiler or hydraulic decoiler
2	Raw material thickness	0.2-0.8mm
3	Material	As your requirements
4	Machine dimensions	7000*800*1500mm
5	Feeding width	According to your profile
6	Forming station	13 to 15 steps
7	Shaft diameter	75mm
8	Shaft material	High-grade 45# steel, heated and quenched
9	Roller material	High-grade 45# steel, coated with 0.05mm chrome
10	Forming speed	10-15m/minute (adjustable)
11	Transmission type	Chain transmission
12	Machine frame stand	Welded structural steel, thickness is 18mm
13	Main motor	5.5kW from Shanghai, China
14	Cutting type	Stop hydraulic cutting
15	Cutting power	3kW
16	Cutter material	Cr12 with quenched treatment HRC 58-62
17	Cutting length error	±2mm
18	Voltage	380V/50Hz and 3 or according to your requirements
19	Control system	PLC control system
20	Size of PLC	700*1000*300mm
21	PLC	Delta/Siemens

### Components of Galvanized Ridge Roofing Sheet/Cap Roll Forming Machine

1. Manual Decoiler.....1 set

- 
- 2. Feeding Guide.....1 set
  - 3. Main Roll Forming Machine.....1 set
  - 4. Hydraulic Cutting Device.....1 set
  - 5. Hydraulic Station.....1 set
  - 6. PLC Computer Control.....1 set
  - 7. Output Table.....1 set

Machine details:

---

Package and shipment details:

The machines sold by Haixing Industrial Group Co., Ltd. use standard export packaging, as follows:  
1\*40 GP container, main machine naked and fastened with iron wire in the container, rollers were painted with oil and packed with plastic film, electric devices be packed with wooden box.
