## CE Certificate Metal Steel Slitting Machine,Slitting Line,Metal Sheet Cutting Machine

We think what buyers think, the urgency of urgency to act during the interests of a purchaser position of theory, allowing for much better high-quality, reduced processing costs, charges are more reasonable, won the new and outdated consumers the support and affirmation for CE Certificate Metal Steel Slitting Machine,Slitting Line,Metal Sheet Cutting Machine, Fantastic good quality, competitive costs, prompt delivery and dependable provider are guaranteed Kindly let us know your quantity requirement under each size category so that we can easily inform you accordingly.

We think what buyers think, the urgency of urgency to act during the interests of a purchaser position of theory, allowing for much better high-quality, reduced processing costs, charges are more reasonable, won the new and outdated consumers the support and affirmation for [Metal Sheet Cutting Machine](#), [Slitting Line](#), [Steel Slitting Machine](#), Besides there are also professional production and management , advanced production equipment to assure our quality and delivery time , our company pursues the principle of good faith, high-quality and high-efficiency. We guarantee that our company will try our best to reduce customer purchase cost, shorten the period of purchase, stable products quality, increase customers' satisfaction and achieve win-win situation .

The technical parameters of the machine are as follows:

1	Suitable to process	PPGI, galvanized sheet
2	Thickness of raw material	Slitting: Max 0.8mmCutting: Max 2.0mm
3	Roller station	Up: 5 rollersDown: 6 rollers
4	Voltage	380V,50HZ,3Phase
5	Main frame	350 H beams
6	Side-wall thickness	40mm
7	Diameter of shaft	□ 90mm
8	Chain size	1 Inch
9	Motor power	3kw(Siemens)
10	Touch screen/PLC	Siemens
11	Transmission	Gear transmission
12	Machine size	2200x2000x2000m
13	Machine weight	About 2Tons

Machine details

---

### Machine packaging and shipping details

Standard export packaging: 1 \* 40 GP container.

1, The main machine is bare and fixed in the container with wire.

2, The rollers is oiled and packaged in plastic film.

3, Electronic equipment is packed in wooden cases.

### Professional

More than 20 years of experience in roll forming machinery manufacturing;

Professional production line, well-trained workers, strict QC standards.

### Main market

Our products have been shipped to Norway, Denmark, Sweden, Germany, Australia, the United States, Brazil, Italy and so on.
