
Discountable price Top Sale Speed Precision Slitting Line Machine

Well-run devices, expert profits group, and better after-sales companies; We have been also a unified huge family, everybody keep on with the organization worth "unification, determination, tolerance" for Discountable price Top Sale Speed Precision Slitting Line Machine, We are going to wholeheartedly welcome all clientele while in the industry both of those in your house and overseas to cooperate hand in hand, and create a dazzling long run jointly.

Well-run devices, expert profits group, and better after-sales companies; We have been also a unified huge family, everybody keep on with the organization worth "unification, determination, tolerance" for [Slitting Line Machine](#), We are in continuous service to our growing local and international clients. We aim to be worldwide leader in this industry and with this mind; it is our great pleasure to serve and bringing the highest satisfaction rates among the growing market.

The technical parameters of the machine are as follows:

1	Suitable to process	PPGI, galvanized sheet
2	Thickness of raw material	Slitting: Max 0.8mmCutting: Max 2.0mm
3	Roller station	Up: 5 rollersDown: 6 rollers
4	Voltage	380V,50HZ,3Phase
5	Main frame	350 H beams
6	Side-wall thickness	40mm
7	Diameter of shaft	□ 90mm
8	Chain size	1 Inch
9	Motor power	3kw(Siemens)
10	Touch screen/PLC	Siemens
11	Transmission	Gear transmission
12	Machine size	2200x2000x2000m
13	Machine weight	About 2Tons

Machine details

Machine packaging and shipping details

Standard export packaging: 1 * 40 GP container.

1, The main machine is bare and fixed in the container with wire.
