## Personalized Products Foam Sandwich Panel Machines - Galvanized Steel Trapezoidal Roof Making Machine - Haixing Industrial

| Galvanized steel trapezoidal roof making machine parameters |                       |   |
|---|-----------------------|---|
| 1   | Main motor power      | 4kW, 3-phase or as your requests              |
| 2   | Hydraulic motor power | 3kW   |
| 3   | Hydraulic pressure    | 10-12MPa                                      |
| 4   | Voltage               | 380V/3-phase/50Hz (or as your requirements)   |
| 5   | Control system        | PLC delta inverter                            |
| 6   | Mainframe             | 300/350mm H-beam or 350mm                     |
| 7   | Backboard thickness   | 16mm  |
| 8   | Chain size            | 1 Inch  |
| 9   | Feeding material      | color steel coils                             |
| 10  | Feeding thickness     | 0.3-0.8mm                                     |
| 11  | Feeding width         | 1000mm  |
| 12  | Effective width       | 850mm   |
| 13  | Productivity          | 0-15/min                                      |
| 14  | Roll station          | 13 roll steps (according to different design) |
| 15  | Roller diameter       | 70mm (depends on different design)            |
| 16  | Roller material       | 45# steel                                     |
| 17  | Cutter material       | Cr12  |
| 18  | Cr-plating size       | 0.05mm  |
| 19  | Overall size          | 6800*1400*1150mm                              |
| 20  | Total weight          | 4.8 tons                                      |

The application of metal roof sheets for house and villas:

It can produce several of steel roof and wall panel, the products are widely used as the roof and wall of factory, warehouse, garage, gymnasium, exhibition center, cinema, theatre, etc.

Detail of machine:

---

Packaging Details :

1. Machine is covered by plastic film.
2. PLC control box, spare parts and other small parts are packed by wooden carton box.

Haixing Industrial Group Co., Ltd. specializes in producing galvanized/aluminized/color steel coils, various roofing panels, roofing machines, floor deck machines, roll door forming machines, light keel forming machines and purlin roll forming machines.
