## High Performance Roof Frame Making Machine - 10 tons hydraulic decoiler - Haixing Industrial

| 10 tons hydraulic decoiler technical parameters |                           |                    |
|-------------------------------------------------|---------------------------|--------------------|
| 1                                               | Coil inner diameter       | 450mm-650mm        |
| 2                                               | Maximum width of coiling  | 1250mm             |
| 3                                               | Maximum weight of loading | 10 tons            |
| 4                                               | Hydraulic power           | 5.5kW              |
| 5                                               | Motor power               | 4kW                |
| 6                                               | Working speed             | 0-15m/minute       |
| 7                                               | Oil pump inner diameter   | 120mm              |
| 8                                               | Working press             | 10MPa              |
| 9                                               | Voltage                   | 380V/50Hz, 3 phase |
| 10                                              | Dimensions                | 3.0*1.8*1.9m       |

Features:

1. Types available: hydraulic decoiler.
2. Adapts hydraulic expand/loosen and hydraulic driving system.
3. Easy to operate.
4. Suitable for pre-painted coil, cold-rolled coil and galvanized coil.
