Popular Design for Hydraulic Roofing Sheet Curve Machine - Galvanized Steel Decking Sheet - Haixing Industrial

Product Description

Product Name	Galvanized Steel Decking Sheet
Base Material	Galvanized Steel coil
Standard	AISI, ASTM, BS, DIN, GB, JIS, etc.
Grade	SGCC, DX51D, etc.
Thickness	0.6-1.5mm
Effective Width	600-1025mm
Length	1000-6000mm or as per customers request.
Zinc Coating	60g/m2-275g/m2
Spangle	Zero, Minimum, Regular, Big
Spangle State	regular spangle, small spangle, big spangle, non-spangle and colors
Packing Details	Waterproof paper+ edge protector or iron packing+ bundling, or as per customers request.
Application	Decking sheet is used as the steel structure housing panel, a mobile home panels etc.
Brand	Tianjin HAIXING
Payment	T/T, L/C
Delivery Time	In 20-30 days after receipt advance or LC
Min Order	25 Mt (one 20ft FCL)

This kind of galvanized steel decking sheet can fully exert the tensile strength and ductility of steel and the compressive strength and rigidity of concrete. The combination of steel and concrete can increase the overall buckling and partial buckling of the steel.
