
Big discounting Steel Frame Door Roll Forming Machine - Trending Products 2015 New Design Popular Clip Lock Profile Roll Forming Machine, Structural Standing Seam Roof Panel Roll Forming Machine - Haixing Industrial

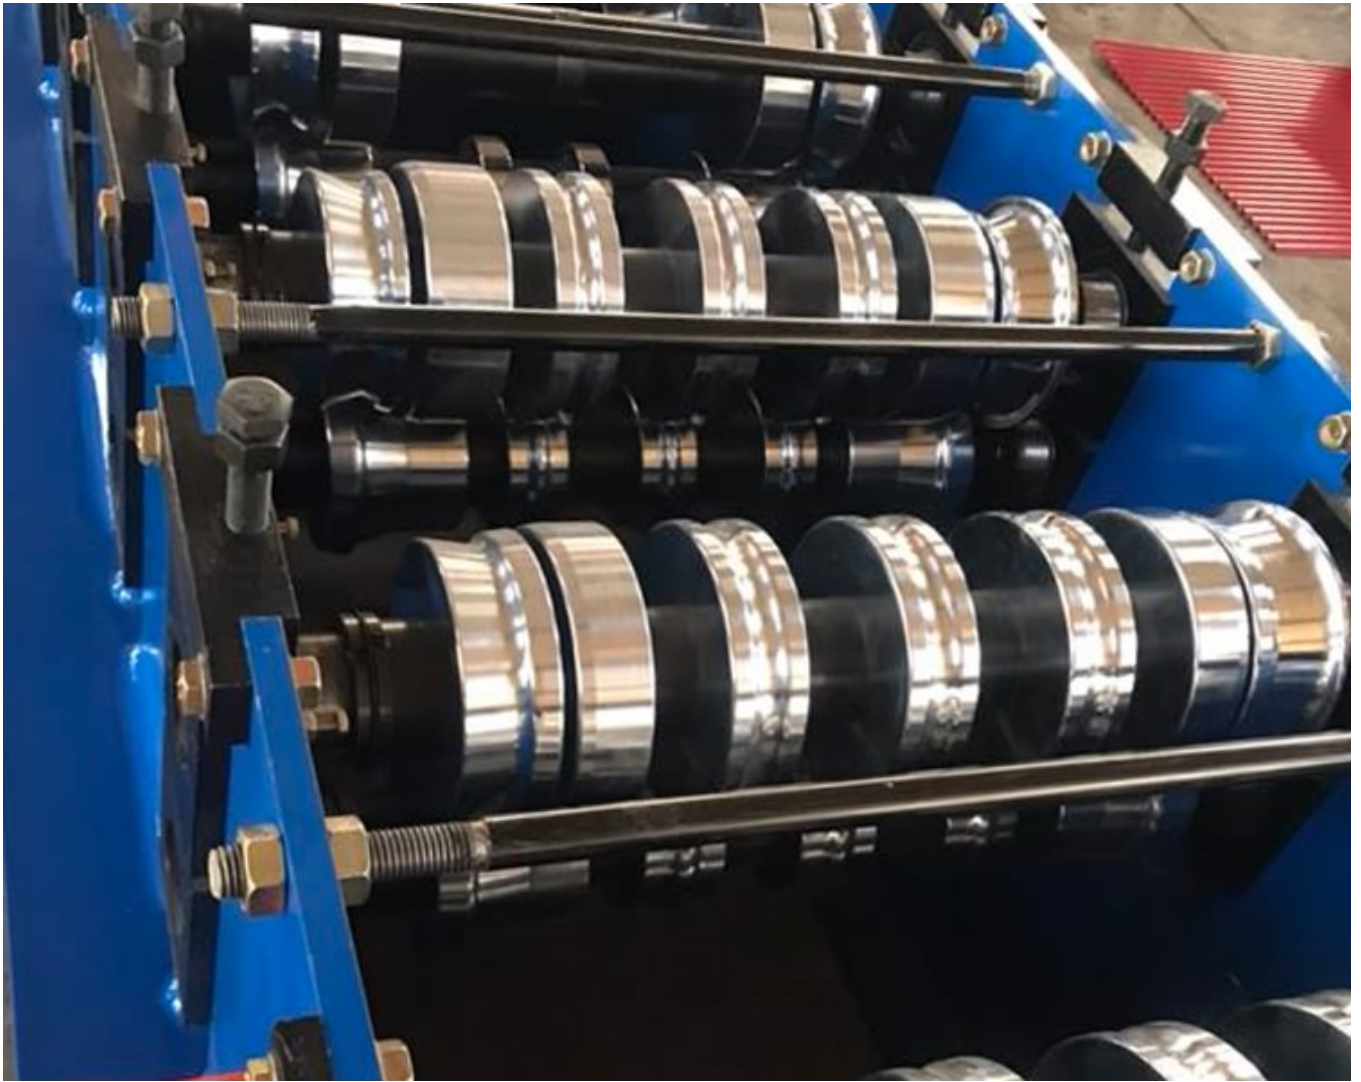

Our mission would be to grow to be an innovative provider of high-tech digital and communication devices by offering benefit added style, world-class production, and repair capabilities for Trending Products 2015 New Design Popular Clip Lock Profile Roll Forming Machine, Structural Standing Seam Roof Panel Roll Forming Machine, Our products and solutions are widely used in a lot of industrial fields. Our Organization Solutions Division in very good faith to the purpose with the excellent of survival. All for customer assistance.

Our mission would be to grow to be an innovative provider of high-tech digital and communication devices by offering benefit added style, world-class production, and repair capabilities for [Metal Cold Roll Forming Machine](#), [New Design Popular Roll Forming Machine](#), [Roof Panel Roll Forming Machine](#), Looking forward, we'll keep pace with the times, continuing to create new products and solutions. With our strong research team, advanced production facilities, scientific management and top services, we are going to supply high quality solutions to our customers worldwide. We sincerely invite you to be our business partners for mutual benefits.

Standing seam metal roof machine is the special equipment for continuous rolling and cold forming on steel sheet.

standing seam metal roof machine parameters		
1	Thickness	0.3-0.8mm
2	Coli material	GI
3	The bearing capacity of manual decoiler	6.5 tons
4	shaft material	45#steel
5	Out diameter	Customized
6	numbers of forming steps	Customized
7	transmission	chain transmission
8	Forming speed	8-12m/min
9	main motor power	3kw
10	voltage	380V50HZ Three-phase or as required
11	dimension	7*1.3*1.3
12	cutting	hydraulic cutting
13	blade material	Cr12 steel with quenched treated 60°C-62°C
14	control system	PLC(Delta)
15	length tolerance	±1mm
