
Supply OEM Galvanized Steel Profile Metal Standing Seam Roof Panel Making Machine For House Building

We not only will try our greatest to offer you excellent services to just about every client, but also are ready to receive any suggestion offered by our buyers for Supply OEM Galvanized Steel Profile Metal Standing Seam Roof Panel Making Machine For House Building, Welcome to post your sample and color ring to let us produce according towards your specification. Welcome your inquiry! Looking ahead to building long-term cooperation with you!

We not only will try our greatest to offer you excellent services to just about every client, but also are ready to receive any suggestion offered by our buyers for [Steel Profile Making Machine](#), We have top engineers in these industries and an efficient team in the research. What is more, we have our own archives mouths and markets in China at low cost. Therefore, we can meet different inquiries from different clients. Please find our website to check more information from our products.

The standing seam metal roof machine adopts PLC control, AC frequency and adjusting the speed technology, and it realizes the continuous automatically production.

Parameters of standing seam metal roof machine:

1	Thickness	0.3-0.8mm
2	Coli material	GI
3	The bearing capacity of manual decoiler	6.5 tons
4	shaft material	45#steel
5	Out diameter	Customized
6	numbers of forming steps	Customized
7	transmission	chain transmission
8	Forming speed	8-12m/min
9	main motor power	3kw
10	voltage	380V50HZ Three-phase or as required
11	dimension	7*1.3*1.3
12	cutting	hydraulic cutting
13	blade material	Cr12 steel with quenched treated 60°C-62°C
14	control system	PLC(Delta)
15	length tolerance	±1mm
