
High Quality for Ce Certification 10-12mpa Steel Keel Ceiling Metal T Bar And Gird Roll Forming Machine Manufacture

Our products and solutions are greatly recognized and trustworthy by customers and may fulfill constantly changing financial and social requires for High Quality for Ce Certification 10-12mpa Steel Keel Ceiling Metal T Bar And Gird Roll Forming Machine Manufacture, Sincerely hope to develop long-term company associations along with you and we are going to do our greatest provider for you. Our products and solutions are greatly recognized and trustworthy by customers and may fulfill constantly changing financial and social requires for [Ceiling T Bar Roll Forming Machine Manufacture](#), [Ceiling T Gird Roll Forming Machine](#), [Steel Keel Machine T Bar Machine](#), Our products are widely recognized and trusted by users and can meet continuously changing of economic and social needs. We welcome new and old customers from all walks of life to contact us for future business relationships and mutual success!

The cold-formed keel of t grid light steel keel roll forming machine is a kind of frame used to support the shape and fixed structure. The keel is the skeleton and substrate of the home decoration. It is very common to use and can be designed according to the buyer's sample or drawings.

T grid light steel keel roll forming machine parameters		
1	Suitable to process	Color steel plate
2	Width of the plate	As customer need
3	Thickness of the plate	0.5-1.2mm
4	De-coiler	Manual one, can load 3 tons raw material
5	Rollers for forming	18 rows
6	Diameter of the roller	Φ52mm
7	Rolling material	Carbon steel 45#
8	Main motor power	4kW
9	Productivity	8-12m/minute
10	Cutting method	Hydraulic mold cutting
11	Material of the cutting blade	Cr12
12	Hydraulic cutting power	3kW
13	Processing precision	Within 1.00mm
14	Control system	Delta PLC control
15	Side panel of machine	25mm
16	Main structure of the machine	300H steel
17	Weight	About 6.5T
18	Dimensions	5.5*1.0*1.5m
19	Voltage	380V/50Hz/3 phases (changeable as needs)

Components:

Manual decoiler -----1 set

Guiding platform -----1 set

Main machine of roll forming -----1 set

Electric motor -----1 set

Cutting device -----1 set

Hydraulic station -----1 set

PLC control -----1 set

Supporter table -----1 set

Machine picture display

Packaging Details :

1. Machine is covered by plastic film.
2. PLC control box, spare parts and other small parts are packed by wooden carton box.

Terms:

1. Delivery: within 60 days after receiving the deposit.
2. Package: export standard package for container.
3. Payment: TT (30% by TT in advance, 70% by TT after inspect the machine before delivery).
