
2018 High quality Metal Roofing Panel Forming Machine, Metal Roofing Panel Roll Forming Machine, Metal Roof Panel Roll Forming Machine

Being supported by an advanced and professional IT team, we could offer technical support on pre-sales & after-sales service for 2018 High quality Metal Roofing Panel Forming Machine, Metal Roofing Panel Roll Forming Machine, Metal Roof Panel Roll Forming Machine, By our hard get the job done, we've constantly been around the forefront of clean technology merchandise innovation. We are a green partner you can rely on. Call us today for more data!

Being supported by an advanced and professional IT team, we could offer technical support on pre-sales & after-sales service for [Ibr Metal Sheet Roof Panel Roll Forming Machine](#), [Metal Roofing Panel Forming Machine](#), [Ridge Tile Panel Sheet Rollforming Machine](#) [Metal Roof Ridge Cap Roll Forming Machine](#), Our products have been obtained more and more recognition from foreign clients, and established long term and cooperative relationship with them. We`ll provide the best service for every customer and sincerely welcome friends to work with us and establish the mutual benefit together.

roof ridge making machine parameters		
1	Decoiler	Manual decoiler or hydraulic decoiler
2	Raw material thickness	0.2-0.8mm
3	Material	As your requirements
4	Machine dimensions	7000*800*1500mm
5	Feeding width	According to your profile
6	Forming station	13 to 15 steps
7	Shaft diameter	75mm
8	Shaft material	High-grade 45# steel, heated and quenched
9	Roller material	High-grade 45# steel, coated with 0.05mm chrome
10	Forming speed	10-15m/minute (adjustable)
11	Transmission type	Chain transmission
12	Machine frame stand	Welded structural steel, thickness is 18mm
13	Main motor	5.5kW from Shanghai, China
14	Cutting type	Stop hydraulic cutting
15	Cutting power	3kW
16	Cutter material	Cr12 with quenched treatment HRC 58-62
17	Cutting length error	±2mm
18	Voltage	380V/50Hz and 3 or according to your requirements
19	Control system	PLC control system
20	Size of PLC	700*1000*300mm
21	PLC	Delta/Siemens

Machine details:

Roof ridge making machine package and shipment details:

Standard export packing: 1 x 40GP container, main machine naked and fastened with iron wire in the container, rollers were painted with oil and packed with plastic film, electric devices be packed with wooden box.
