
China New Product Cold Roll Stainless Steel Coil - Wholesale OEM/ODM Hebei Stone Coated Metal Roofing Tile Machine With Best - Haixing Industrial

Our improvement depends on the superior equipment, excellent talents and continuously strengthened technology forces for Wholesale OEM/ODM Hebei Stone Coated Metal Roofing Tile Machine With Best, It is actually our great honor to satisfy your needs. We sincerely hope we can easily cooperate along with you inside the around potential.

Our improvement depends on the superior equipment, excellent talents and continuously strengthened technology forces for [Hebei Color Coated Galvanized Steel Coil Roofing Wall Ceiling Making Machine With Best](#), [Hebei Stone Coating Machine](#), [Stone Coated Metal Roofing Tile Machine](#), As an experienced factory we also accept customized order and make it same as your picture or sample specifying specification and customer design packing. The main goal of the company is to live a satisfactory memory to all the customers, and establish a long term win-win business relationship. For more information, please contact us. And It is our great pleasure if you like to have a personally meeting in our office.

Our Steel Colored Stone Coated Production Line meets the diverse requirements of our customers.

The Steel Colored Stone Coated Production Line is described in detail as follows:

NO. 1 Auto bottom glue spraying section

Appearance size	4000*1000*2000mm
Driving section	3KW Excitation motor or frequency speed regulation (AS per customers' requirements)
Automatic pressure spray tank	1set; Capability:200kg; Range:0.6~1Mpa
Automatic glue machine motor	Servo motor; Power:750w; PLC
Automatic spray gun	4 set (spare parts)
Dust collecting fan	1 set; Power: 200w
Damp proof lamp	1 pcs; Power: 100w
Conveying device	Chain reciprocating
Air compressor	1 set; Power: 7.5kw
Dust control of axial flow fan	1 set; Power: 200w
Agitator	1 set; Power: 1.5kw

NO. 2 Auto stone coated section

Appearance size	3500*1000*1500mm
Framework	Steel welding
Conveying device	Chain reciprocating
Automatic sand hopper	1 set; Capability: 200kg
Bucket lift	1 set
Manual sandblast gun	4 sets

NO. 3 The first time drying section

Appearance size	25000*1000*1200mm
Framework	Steel welding
Frame type thermal insulation wall	1.2mm cold steel with Rock wool
Automatic temperature controller	4 sets; Range: 0°~160°

Infrared heating tube	30pcs; Power: 30kw
Conveying device	Chain reciprocating
Air cooling device	1 set; Power: 200w

NO. 4 Auto face glue spraying section

Appearance size	3000*1000*2000mm
Framework	Steel welding
Damp proof lamp	1 pcs; Power:100w
Automatic pressure spray tank	1 set; Capability: 200kg; Range: 0.6~1Mpa
Conveying device	Chain reciprocating
Automatic spray gun	4 sets (spare parts)
Manual patch glue gun	4 sets
Dust control of axial flow fan	1 set; Power: 200w
Automatic glue machine motor	Servo motor; Power: 750w

NO. 5 The second time drying section

Appearance size	30000*1000*1200mm
Framework	Steel welding
Frame type thermal insulation wall	1.2mm cold steel with Rock wool
Automatic temperature controller	4 sets; Range: 0°~160°
Infrared heating tube	30pcs; Power: 30kw
Conveying device	Chain reciprocating
Air cooling device	1 set; Power: 200w
