## China Manufacturer for Frp Grp Fiberglass Corrugated Roofing Sheet Roll Forming Machine

Our mission is usually to turn into an innovative provider of high-tech digital and communication devices by furnishing benefit added design and style, world-class manufacturing, and service capabilities for China Manufacturer for Frp Grp Fiberglass Corrugated Roofing Sheet Roll Forming Machine, We warmly welcome shoppers from everywhere in the world for almost any form of cooperation with us to make a mutual benefit long term. We're devoting ourselves wholeheartedly to offer buyers the ideal service.

Our mission is usually to turn into an innovative provider of high-tech digital and communication devices by furnishing benefit added design and style, world-class manufacturing, and service capabilities for [Fiberglass Corrugated Roofing Sheet Roll Machine](#), [Frp Corrugated Roofing Sheet Roll Machine](#), [Grp Corrugated Roofing Sheet Roll Machine](#), Our items have won an excellent reputation at each of the related nations. Because the establishment of our firm. now we have insisted on our production procedure innovation together with the most recent modern day managing method, attracting a sizable quantity of talents within this industry. We regard the solution good quality as our most vital essence character.

Roof Metal Sheet Cold Roll Forming Machine Corrugated Tile Parameters:

1	Main motor power	4kW, 3 phase or as your requests
2	Hydraulic motor power	3kW
3	Hydraulic pressure	10-12MPa
4	Voltage	380V/ 3 phase/ 50 Hz (or as your requirements)
5	Control system	PLC delta inverter
6	Main frame	300/350 mm H-beam
7	Backboard thickness	16 mm
8	Chain size	1 Inch
9	Feeding material	color steel coils
10	Feeding thickness	0.3-0.8 mm
11	Productivity	0-15/ min
12	Roll station	13 roll steps (according to different design)
13	Roller diameter	70 mm (depends on different design)
14	Roller material	45# steel
15	Cutter material	Cr12
16	Cr-plating size	0.05 mm

Popular drawing of corrugated roof metal sheets:

Different parts of the machine:

Decoiler: the common machine with 5 tons manual decoiler or you also can choose electric decoiler or hydraulic decoiler

PLC control console:

Roll forming parts and Output table:

Cutting parts: common is hydraulic pump drive cutting or you can choose electric motor drive cutting as follows:

Easy-broken parts:

---
