
Chinese Professional Hydraulic Electrical Steel Sheet Shutter Door Guide Rail Cold Roll Forming Machines

We not only will try our greatest to offer you excellent services to each individual client, but also are ready to receive any suggestion offered by our buyers for Chinese Professional Hydraulic Electrical Steel Sheet Shutter Door Guide Rail Cold Roll Forming Machines, If you are interested in any of our products or would like to discuss a custom order, please feel free to contact us.

We not only will try our greatest to offer you excellent services to each individual client, but also are ready to receive any suggestion offered by our buyers for [Automatic Roller Shutter Door Making Machine](#), [Roller Shutter Slates Roll Forming Machine](#), [Shutter Manufacturing Equipment](#), Our aim is to help customers to make more profits and realize their goals. Through a lot of hard work, we establish a long-term business relationship with so many customers all around the world, and achieve win-win success. We will continue to do our best effort to service and satisfy you! Sincerely welcome you to join us!

Rolling shutter machine flying saw cutting door forming parameters

1	Uncoiler	3tons manual uncoiler
2	Feeding guide	2 roller feeding guide
3	Forming rollers	14 station rollers
4	Roller material	50mm diameter cr12 steel, with twice CNC precise process
5	Forming body	100mm x 80mm square pipe with 3.5mm
6	Forming body outside	With 16mm steel plate welded
7	Transmission	Gear transmission
8	Raw material	Galvanized steel, galvalume steel, color steel coil
9	Raw material thick range	0.5mm to 1.2mm
10	Unloading support	2 pieces 3meter
11	Main motor	3KW/4KW
12	Pump motor	3KW/4KW
13	PLC control system	Automatic control system, language: English, Spanish, Russian and so on.
14	Electric elements	PLC control panel, transducer imported from Mitsubishi of Japan. Other elements are from famous suppliers of China.
15	Cutter blades	Cr12 mold steel with quenched treatment.
16	Factory area	The machine is the 7m length and 2m width, and output sheet according to the customer the longest sheet to calculate
17	Warrant time	14 months
