
5 Tons Hydraulic Decoiler With Coil Car

We're professional 5 tons hydraulic decoiler with coil car manufacturers and suppliers in China, specialized in providing high quality cold forming machine. We warmly welcome you to wholesale bulk 5 tons hydraulic decoiler with coil car at competitive price from our factory.

5 Tons Hydraulic Decoiler With Coil Car, 5 Tons Hydraulic Uncoiler With Coil Car, Hydraulic Decoiler, Hydraulic Uncoiler parameters are as follow:

Decoiler technical parameters		
1	Voltage	380V/50Hz, 3 phase.
2	Dimensions	2500 mm*1600 mm*1750 mm.
3	Weight:	About 2.4 tons.
4	Hydraulic pump station	5 solenoid valve pump station.
5	Hydraulic power	3KW, 380V.
6	host rated power:	4kw (International Trade brand) , cycloid reducer.
7	Frame	Base with 300H GB I-beam, the box is welded with 16mm thick steel plate.
8	Supporting spindle	Made of thick-walled seamless steel tube, shaft diameter 194*45 mm.
9	Feeding width	0-1500 mm.
10	Steel coil inner diameter	470-530 mm, \pm 20 mm.
11	Rated load capacity	Within 5 tons.
12	Hydraulic cylinder	Up the cylinder diameter 125 mm, 1 (plus rotation).
13	Electrical control system	The use of Taiwan Delta inverter (5.5kw), and domestic Zhengtai electrical control parts, inverter.
14	Other	The host plus hydraulic or pneumatic pressure arm.

Machine pictures of 5 tons hydraulic decoiler with coil car

Roll forming machinery: which could produce metallic roofing tile, trapezoidal or sinusoidal roofing sheet, floor deck, C and Z purlin, expressway guardrail, channel and stud, roller shutter and sandwich panel, etc. Customized profiles and requirements are acceptable, and assistant equipment such as hydraulic decoiler, auto stacker, etc.
