
5 Ton Hydraulic Galvanized Steel Coil Uncoiler

To get the most out of your molding equipment, you must use a high-performance feed line. For many types of sheet metal processing, the leveling and feeding process can be integrated into one machine.

5 Ton Hydraulic Galvanized Steel Coil Uncoiler technical parameters

Coil inner diameter	450mm-650mm
Maximum width of coiling	1250mm
Maximum weight of loading	5 tons
Hydraulic power	3kW
Motor power	3kW
Working speed	0-15m/minute
Oil pump inner diameter	120mm
Working press	10MPa
Voltage	380V/50Hz, 3 phase
Dimensions	3110x1650x1780mm

Features:

Types available: hydraulic decoiler.

Adapts hydraulic expand/loosen and hydraulic driving system.

Easy to operate.

Suitable for pre-painted coil, cold-rolled coil and galvanized coil.

Delivery: within 60 days after receiving the deposit.

Package: export standard package for container.

Payment: TT (30% by TT in advance, 70% by TT after inspect the machine before delivery).
