
Hot-selling Ridge Cap Roll Forming Making Machine Metal Roof Ridge Capping Roll Forming Machine Roofing Ridge Cap Roll Forming Machine

We think what shoppers think, the urgency of urgency to act during the interests of a buyer position of basic principle, allowing for greater top quality, less processing costs, costs are extra reasonable, won the new and previous buyers the support and affirmation for Hot-selling Ridge Cap Roll Forming Making Machine Metal Roof Ridge Capping Roll Forming Machine Roofing Ridge Cap Roll Forming Machine, Adhering towards the enterprise philosophy of 'customer to start with, forge ahead', we sincerely welcome clientele from at your home and overseas to cooperate with us.

We think what shoppers think, the urgency of urgency to act during the interests of a buyer position of basic principle, allowing for greater top quality, less processing costs, costs are extra reasonable, won the new and previous buyers the support and affirmation for [Metal Roof Ridge Capping Roll Forming Machine Roofing Ridge Cap Ro](#), [Ridge Cap Roll Forming Making Machine](#), [Roofing Ridge Cap Roll Forming Machine](#), Our company always committed to meet your quality demand, price points and sales target. Warmly welcome you open the boundaries of communication. It is our great pleasure to service you if you require a trusted supplier and value information.

We can manufacture and design various color steel ridge cap roll forming machines according to customer requirements.

Color Steel Ridge Cap roll Forming Machine parameters		
1	Decoiler	Manual decoiler or hydraulic decoiler
2	Raw material thickness	0.2-0.8mm
3	Material	As your requirements
4	Machine dimensions	7000*800*1500mm
5	Feeding width	According to your profile
6	Forming station	13 to 15 steps
7	Shaft diameter	75mm
8	Shaft material	High-grade 45# steel, heated and quenched
9	Roller material	High-grade 45# steel, coated with 0.05mm chrome
10	Forming speed	10-15m/minute (adjustable)
11	Transmission type	Chain transmission
12	Machine frame stand	Welded structural steel, thickness is 18mm
13	Main motor	5.5kW from Shanghai, China
14	Cutting type	Stop hydraulic cutting
15	Cutting power	3kW
16	Cutter material	Cr12 with quenched treatment HRC 58-62
17	Cutting length error	±2mm
18	Voltage	380V/50Hz and 3 or according to your requirements
19	Control system	PLC control system
20	Size of PLC	700*1000*300mm
21	PLC	Delta/Siemens
