
Color Stone Coated Metal Roof Tile Production Line

Technical Data of Color Stone Coated Metal Roof Tile Production Line

Material thickness	0.3~0.7mm
Material yield stress	230~550 Mpa
Max. forming speed	8~25m/min
Roller material	45# steel with chrome treatment
Roller driven type	Chain transmission
Controller & operation	PLC & touch screen and button
Hydraulic system pressure	12 Mpa
Hydraulic station motor power	3 Kw
Main motor power	4~5.5Kw
Total power	7~8.5Kw
Total weight	About 6000~8000 Kgs
