## 2019 Coil Sheet Leveling Machine

### 2019 Coil Sheet Leveling Machine applications

The Coil Sheet Leveling Machine is mainly used to correct plates of various specifications and cut into pieces. This machine can be used for leveling various cold and hot rolled sheets.

Because of its convenient operation, the application of the Coil Sheet Leveling Machine covers many industries such as machinery, metallurgy, building materials, chemicals, electronics, electric power, light industry, etc., especially in shipbuilding, rolling stock, boiler bridges, metal structure factories and other industries.

### 2019 Coil Sheet Leveling Machine parameters

1	Suitable to process	PPGI, galvanized sheet
2	Thickness of raw material
