
Pvc Plastic Synthetic Resin Roof Tiles

Pvc Plastic Synthetic Resin Roof Tiles have the advantages of long-lasting color, light weight, self-waterproof, toughness, thermal insulation, sound insulation, corrosion resistance, wind and shock resistance, anti-icing, anti-fouling, green environmental protection, fire prevention, insulation and convenient installation.

Pvc Plastic Synthetic Resin Roof Tiles Parameters

Product name	Pvc Plastic Synthetic Resin Roof Tiles		
Width	1050 mm		
Effectic width	960 mm		
Length	Customized		
Color	Red,Grey, blue, green or as customized		
Thickness	2.3 mm 3.0mm		
Weight	2.3 mm/4 .38kg/sqm		
	2.5 mm/4.76kg/sqm		
	3 mm/5.9kg/sqm		
Features	1. Corrosion resistance		
	2. Sound insulation		
	3. Acid and alkali and organic solvents		
	4. Good resistance to impact and low temperature		
	5. Flame retardant		
	6. Easy to install, maintenance , and clean		
	7. Environmental and healthy		
Application	This kind of synthetic resin roof sheet was widely used in the roofs, sheds, farm markets, road hoardin! ,lat to sloping roof conversion ,villas gardening ,pavillions and other fields ,Etc		
Packing list	Thickness	SQM/20"FCL(26TONS)	SQM/40"FCL(26TONS)
	2.3 mm	5800 SQMS	5800 SQMS
	2.5 mm	5400 SQMS	5400 SQMS
	3.0 mm	4500 SQMS	4500 SQMS

Picture of PVC plastic synthetic resin roof tiles

Popular PVC roof sheet

Popular PVC Sheet

1.Type: 1000

Trapezoidal anti-corrosion tile

2.Type: 1130

T shape pvc roof sheet

3.Type: 910

Hollow corrugated tile

4.Type: 1000

Synthetic resin roof tile

5.Type: 1050

Synthetic resin roof tile

Pvc Plastic Synthetic Resin Roof Tiles Advantage

- 1.save cost
- 2.Loading bearing: It can load 150 kg per square meter evenly
- 3.Lightweight: 5-6.0kg/square meter
- 4.Water resistance: 100%
- 5.Fire resistance: Self-extinguish off the fire
- 6.Anti-corrosion
- 7.Impact resistance and low-temperature resistance
- 8.Sound and heat insulation
- 9.Small Thermal expansivity
- 10.Environmental protection and energy conservation
- 11.Easy to install
