
Ceiling T Bar T Grid Roll Forming Machine

Ceiling T Bar T Grid Roll Forming Machine Forming Device Technical Parameter

Name	Specification	
Rollers for forming	16 Rows	
Roller material	Cr12	
roller inner diameter	Φ40mm	
roller outer diameter		minΦ90mm
heat treatment hardness	HRC58-62	
Symmetry	≤ 0.05	
Motor power	3kw	
Transmission mode	chain drive + gear transmission	
Side plate thickness	25mm	
Shaft material	45# steel	
Feeding positioning	Manual positioning, flexible adjustment at both ends	
Control system	PLC programming controller, with the touch screen automatic control system	
Stamp Die material	SKD11	
Stamp Die heat treatment hardness	HRC56-58	

Ceiling T Bar T Grid Roll Forming Machine details

Machine details

Ceiling T Bar T Grid Roll Forming Machine's out table uses Stainless operation table, bottom base is welded with iron plate.

Ceiling T Bar T Grid Roll Forming Machine Packaging details

Container packing of the line suitable for overseas shipping.

Free packaging for you;

Standard export packing: 20feet or 40 feet GP container; main false ceiling machine naked and fastened with iron wire in the container, rollers were painted with oil and packed with plastic film, the control box will be packed with carton box.

After Service

- a. Two years guarantee for whole false ceiling machine.
- b. 24 hours technical support by email or calling
- c. If there is any problem found of the Automatic Ceiling T Grid T Bar Machinery, we will repair it for free in one year.

Company Information

We have profuse designs with the series quality grade, and expressly, our price is very competitive because we are manufactory, we are the source.

Our first focus is the quality improvement and customer's satisfaction, we have exported the products to Africa, South America, Russia, India, Pakistan, Southeast Asia, etc. the customers of domestic and foreign evaluate highly for our stable quality and cost-effective.

We are waiting for you!
