
C Section Light Steel Keel Making Machine

C Section Light Steel Keel Making Machine Product Description

Steel Light Keel Roll Forming Machine can manufacture all kinds of steel light keels, and the produced keel has an aesthetic appearance.

Suitable to process		Color steel plate	
Control System	PLC Colored Touch Screen		
Rollers	10 stands		
Shaft Diameter	60mm		
Thickness of the plate		0.3-1.2mm	
Hydraulic Pressure	10-12MPa		
Roller Standard	45#steel with chrome coating heat treatment		
Cr-Plating Size	0.05mm		
Cutter Standard	Cr12		
Power	5.5Kw		
Voltage	380V 50Hz 3phases		
Overall Size	3.8 Tons		

C Section Light Steel Keel Making Machine details

FAQ

Q: Why choose your company's products?

A: Because of our products cost-effective, not only high quality and affordable.

Q: Does one machine can only produce one style panel profile?

A: Not exactly. For wider and double layer making machine. It can produce more than 3 kinds of panels.

Q: Can you make the machine according to my design or prototype?

A: Yes. We have an experienced team for working out the most suitable design and production plan for the machine that you are going to book with us.
