Auto Curved Roll Forming Machine Applications

The curved panels produced by Auto Curved Roll Forming Machine are used for the door and wall.

Usually, when raining, the raindrops to the front of your door, and there is some water.

It is not convenient to come in or out. Now with the curved panel, the rain is guided away from your door. It will be cleaner.

It works the same for the wall. With the curved panel, the rain will not leak into your room, also keeps away from the wall panel. Thus the wall panel will endure for longer years.
