
Leading Manufacturer for Speed Portable Used Metal Roof Panel Roll Forming Machinery To Produce Building Material

Dependable high-quality and good credit rating standing are our principles, which will help us at a top-ranking position. Adhering into the tenet of "quality first, consumer supreme" for Leading Manufacturer for Speed Portable Used Metal Roof Panel Roll Forming Machinery To Produce Building Material, Every one of the views and strategies are going to be tremendously appreciated! The good cooperation could enhance each of us into much better development!

Dependable high-quality and good credit rating standing are our principles, which will help us at a top-ranking position. Adhering into the tenet of "quality first, consumer supreme" for [Metal Roofing Roll Forming Machine](#), [Roll Form Machine](#), [Speed Portable Used Metal Roof Panel Roll Forming Machinery](#), With the goal of "zero defect". To care for the environment, and social returns, care employee social responsibility as own duty. We welcome friends from all over the world to visit and guide us so that we can achieve the win-win goal together.

The corrugated roof and wall panel roll forming machine adopts PLC control panel, and its language can be used in English, Spanish, Russian, etc.. Our corrugated roof and wall panel roll forming machine use sensors imported from Mitsubishi, Japan. Other parts are from well-known suppliers in China. This makes our machines have a high quality and long service life.

Corrugated roof and wall panel roll forming machine parameters

1	Main motor power	4kW/5.5KW/7.5KW or as actual demands
2	Hydraulic motor power	3kW/4KW.5.5KW or as actual demands
3	Hydraulic pressure	10-12MPa according oil pump and pump motor
4	Voltage	380V/ 3 phase/ 50 Hz (or as your requirements)
5	Control system	Automatic PLC control system
6	Main frame	350H beams/400H beams according machine demands
7	Wall sheet thickness	16mm/18mm/20mm/22mm according machine demands
8	Chain size	1 inch/1.2inch according machine demands
9	Feeding material	Galvanized steel coil/color steel coil/aluminum steel coil
10	Feeding thickness	0.3-0.8 mm
11	Productivity	0 - 25m/min (according machine specification)
12	Roll station	Common 11rolls ro 25rolls (according to different design)
13	Roller diameter	70mm/75mm/80mm (depends on different design)
14	Roller material	45# steel
15	Cutter material	Cr12MOV
16	Cr-plating size	0.05 mm

Machine pictures

Our Advantages

1. Our machine motor are GERMAN BRAND SIEMENS
2. Our roller spacer are 4 mm thick seamless steel pipe
3. Our output table can be adjust height according customer demands
4. Our PLC control console can be look around 360 degree
5. All easy-broken pars can be change within 14 month in free
