
High definition Precision Plc Control Metal Roof Ridge Cap Roof Panel Roll Forming Machine

Persisting in "High high-quality, Prompt Delivery, Competitive Price", we now have established long-term cooperation with consumers from equally abroad and domestically and get new and old clients' substantial comments for High definition Precision Plc Control Metal Roof Ridge Cap Roof Panel Roll Forming Machine, We purpose at Ongoing system innovation, management innovation, elite innovation and industry innovation, give full play into the overall advantages, and continuously make improvements to provider quality.

Persisting in "High high-quality, Prompt Delivery, Competitive Price", we now have established long-term cooperation with consumers from equally abroad and domestically and get new and old clients' substantial comments for [Roof Panel Roll Forming Machine](#), [Sandwich Panel Production Line](#), We have been trying our best to make more customers happy and satisfied. we sincerely hope to establish a good long-term business relationship with your esteemed company thought this opportunity, based on equal, mutual beneficial and win win business from now till the future.

Trapezoidal Sheet Roll Forming Machine parameters		
1	Main motor power	4kW, 3-phase or as your requests
2	Hydraulic motor power	3kW
3	Hydraulic pressure	10-12MPa
4	Voltage	380V/3-phase/50Hz (or as your requirements)
5	Control system	PLC delta inverter
6	Mainframe	300/350mm H-beam or 350mm
7	Backboard thickness	16mm
8	Chain size	1 Inch
9	Feeding material	color steel coils
10	Feeding thickness	0.3-0.8mm
11	Feeding width	1000mm
12	Effective width	850mm
13	Productivity	0-15/min
14	Roll station	13 roll steps (according to different design)
15	Roller diameter	70mm (depends on different design)
16	Roller material	45# steel
17	Cutter material	Cr12
18	Cr-plating size	0.05mm
19	Overall size	6800*1400*1150mm
20	Total weight	4.8 tons

The application of metal roof sheets for house and villas:

It can produce several of steel roof and wall panel, the products are widely used as the roof and wall of factory, warehouse, garage, gymnasium, exhibition center, cinema, theatre, etc.

Detail of machine:

Packaging Details :

1. Machine is covered by plastic film.
2. PLC control box, spare parts and other small parts are packed by wooden carton box.
