

Building material machinery corrugated sheet metal roof

Building material machinery corrugated sheet metal roof machine parameters

1	Main motor power	4kW, 3 phase or as your requests
2	Hydraulic motor power	3kW
3	Hydraulic pressure	10-12MPa
4	Voltage	380V/ 3 phase/ 50 Hz (or as your requirements)
5	Control system	PLC delta inverter
6	Main frame	300/350 mm H-beam
7	Backboard thickness	16 mm
8	Chain size	1 Inch
9	Feeding material	color steel coils
10	Feeding thickness	0.3-0.8 mm
11	Productivity	0-15/ min
12	Roll station	13 roll steps (according to different design)
13	Roller diameter	70 mm (depends on different design)
14	Roller material	45# steel
15	Cutter material	Cr12
16	Cr-plating size	0.05 mm

This machine is made up of roll forming machine, hydraulic cutting machine, hydraulic station, PLC control system, product rack.

Why choose us?

1. Our company owned professional design team, we can design different profile according customer's demands.
2. We design and manufacture machines using advanced standard technology. We have strict control over the quality of the machines, our principle is that "never let one unqualified Machine leave our factory".
3. Our machines are controlled by computer, PLC display, simple operation, stable and reliable operation, durable and maintenance-free.
4. Our machines can uses galvanized steel sheet, colored armor plate or aluminum plate as the material plate.
5. Our machine has a long warranty and you can use it without worry after purchase.
